

FIELD PROJECT REPORT ON TRAVEL PLANNER

Travel Planner Project Presentation

Introduction

- • Travel Planner application using basic Computer Science knowledge
- • Plans trips and manages travel details
- • Uses HTML, CSS, JavaScript
- • Uses basic travel/map APIs

What is Travel Planner Project

- • Practical assignment to design a travel planning system
- • Organizes destination, budget, transport, accommodation
- • Developed using frontend technologies
- • Simple API integration

Project Background

- • Created webpage using HTML
- • Designed using CSS
- • Managed data using JavaScript
- • Connected travel/map API
- • Displayed data in cards and tables

Purpose of Project

- • Understand travel planning basics
- • Apply frontend knowledge
- • Learn API working
- • Improve practical skills
- • Build confidence

Objectives

- • Create travel planner webpage
- • Manage destinations and details
- • Use HTML, CSS, JavaScript
- • Fetch travel data using API
- • Present information clearly

What is API

- • API = Application Programming Interface
- • Connects one software with another
- • Used to fetch travel/location data
- • Displayed using JavaScript

How API is Used

- • Connected using JavaScript
- • Fetches location and route details
- • Displays information on webpage
- • Makes project interactive

Study Area

- • Selected tourist places or cities
- • Organized distance and transport details
- • Displayed accommodation info
- • Presented in structured format

Methodology

- • Understood travel planning concept
- • Designed webpage layout
- • Integrated API
- • Tested webpage
- • Prepared report

Applications

- • Travel booking websites
- • Tourism management systems
- • Mobile travel apps
- • Academic projects

Advantages

- • Easy to understand
- • Improves frontend skills
- • Real-world application
- • Beginner friendly

Disadvantages

- • Basic level project
- • Internet dependent
- • API accuracy dependent

Conclusion

- • Combines frontend technologies and APIs
- • Provides practical exposure
- • Builds foundational development skills
- • Useful real-world learning project
